

Registration of your foal 2024 when your foal stay at 't Molenhof

Do it on time because it takes months that the vet and the studbook have the passport ready! When the foal needs to leave you need a passport!

- 1) Decide which studbook you register your foal.
 - a) Fill in everything about the foal, breeder and owner in the link below:

Option 1: BWP / Belgian Warmblood: [BWP - Register foal - Equis \(equisonline.nl\)](https://www.equisonline.nl)
→ You can register without an account

Option 2: Zangersheide: [Register your foal now at Zangersheide | Studbook Zangersheide](https://www.zangersheide.nl/studbook)
→ To register a foal you have to create an account
 - b) You need to put a number for the holder of the foal = when your foals stay at 't Molenhof you put BE-07001353 as number there. You also have to fill in our mailaddress: info@stal-molenhof.be
 - c) Identification vet at 't Molenhof: dr. Mijten Frederik
 - d) Write down by remarks that when the passport is ready it has to be send to 't Molenhof, Steenhuis 30, 3650 Dilsen-Stokkem, Belgium.
 - e) You will receive an email to confirm
- 2) 't Molenhof will receive a mail to pay for the holdership for your foal. You will find it later at your invoice.
- 3) After this payment is done, the vet receive in the app the document to make the signalement
- 4) Vet does signalement and put the chip (invoice end of the season directly from the vet)
- 5) Vet send signed documents to studbook
- 6) Studbook does the DNA test and prepare the passport. Make sure that you (breeder) contact the studbook 2 months after step 1 to check if all is going well!

We want to avoid that it take too much time before we have the passports when the foals have to leave after weaning, so this is important to do ON TIME!
